

TRAINING AGENDA

“Common OSHA Standards for the Water & Sewer Departments-Mandated Training and Written Programs”

Presented by: Frost Training & Consulting, LLC, Billy Frost & SCRWA

Wednesday Feb 3

Dillon Wellness Center
1647 Commerce Dr
Dillon, SC 29536
(843) 774-5115

8:30 am – 12:30 am (4 CEUs)

This ½ day course covers the common OSHA Standards that Water and Sewer Departments have to comply with. Topics such as Permit-required confined space, Trenching & Excavation, Bloodborne Pathogens, Lockout/Tagout, Hazard Communication, and Fall Protection, will be covered. The topics will be explained as well as how to comply with these Standards and their common application in the Water & Sewer Departments. Training requirements such as initial and annual required training, level of training, training records, and what training SC OSHA requires will be covered. Any Written Programs that are required will be covered as well as what is required to be in the Written Program. Participants will be given checklists to evaluate the effectiveness of their safety programs and what areas, if any, should be upgraded. After this training, participants should understand what OSHA Standards cover their workplace and how to comply with these Standards.

**Fee: \$45 / SCRWA Member Systems
\$75 / Non-Member Attendees**
